Verbal
Authorization

Pete

Sorry to bother on
your day off, but I
wanted to give you
a heads up for
tomorrow. I'd like
to get on a
conference call
tomorrow morning
with yourself and
Tanner about the
site. If you can
arrange that, call
me first so I can
discuss the issues
with you. I'm
interested if there's
anything that can
be done to secure
against major
releases (valve
caps, etc), to buy
time to try and do
something about
the contents of the
warehouse.

Thanks

Dwayne
